

# ARSENIC FREE

The Arsenic free filter from Drop Kiosidis guarantees the complete removal of arsenic from your household water. The filter is installed at the main water supply of your home, right after the main supply filter, and it removes arsenic concentrations up to 40 µg/l for a period of at least 10 years. The filter requires no replacement parts and provides drinking potable water.

Dimensions container (Diameter X Height)	Supply (litres/hour)	Litres of filler
360x1657	1.200	75

**Arsenic Free  
Central Flow**

The Arsenic Free filter is also available as a tap filter with a water flow rate of 2 litres/min. It is installed as an under-counter filter directly under your kitchen tap. Available with a 1/4" tap and you can have drinking water in your kitchen for any use.

Dimensions container bottom bench (Diameter X Height) mm	Supply (litres/ minute)	Litres of filter
196x374	2	8

**Arsenic Free  
Under the Sink Large**

**Arsenic Free  
Under the Sink Small**

# Arsenic Filter

# ARSENIC FREE
